Having interest in playing guitar?

Lots of people wanted to play guitar and try to play their favourite band or artist songs .However almost 95% of them quit halfway. Why is that? Well, it's because most of them may think it's boring, too much hassle and complicated .And most of all – it's not fun! Well, mostly they were right. Having a guitar doesn't make you a famous musician or become master of the guitar itself. It needs lot of patience and hard work to learn the guitar and most people just doesn't have time for that. For a beginner, taking a guitar class can be quite hassle and expensive and they just don't have enough budget to support it especially the beginner guitar lesson class conducted by a professional guitar gurus. Then, how to learn guitar quickly and of course at a bargain price? Well, introducing to you: Jamorama.

What is Jamorama?

Everything starts with basic. Mastering the basics can be a lot of fun by doing it set-by-step with great instructor. Jamorama is an [online beginner guitar lessons](#) which help you progressing with your guitar mastery. It will be delivered online where you can download it directly to your PC or MAC and run it without internet connection. It consist collection of eBooks, MP3 courses and video lessons.

How Jamorama can help me?

Well, firstly, the people in charge on Jamorama try to make their guitar lesson to be fun and attractive which surely can help you to enjoy your guitar trainings more. They also provide you with 8 major styles of music to choose; Rock, Jazz, Reggae, Blues, Funk, Hip Hop, Country, and Metal; at the beginning of the course. For me, I will take Blues as my starting point but it's up to you to choose your starting point.

There's lot of techniques you can extract out from this course such as:

- **216** chord shape,
- **55** strumming patterns,
- Bending,
- Finger Picking,
- Hammer-on,
- Pull-offs etc...

Thus make this course quite overwhelming right? But don't worry, you will not going to learn all of that in one lesson but in step-by-step progression. What more cool about this is you can start play you first song at your first [beginner guitar lesson](#)! That's pretty was awesome even though it's only two note but hey, you playing a guitar.

Jamorama also offer you several other **bonuses** instead of their main courses.

- There is a lesson on how to listen and recognize music chords
- Guitar tuner software (*not very useful to me*)
- A free chord eBook
- And most important is the **30 days access to SongPond**. This site consists of free video guitar lessons to play based on popular artist or band like The Eagles, John Cash, Led Zeppelin, Pink Flyd, Metallica etc.

Why must I choose Jamorama?

Well, if you are a [medium advance or a beginner in guitar](#) then Jamorama is perfect for you. Having running on business for more than 7 years, I could say that they already a pretty establish company. Their instructors are professionals with bachelor degree in education and also a professional musician. It also provides customer support and a forum for their student to interact with each other's. Also, if you interested for their new updates, you can subscribe to their newsletter at their main web page.

Having to pay one time bargain price with instant download is much better compare to other guitar lessons which can cost you up to \$20/month. Plus, if you not satisfied with the course provided or you just wanted your money back, Jamorama offer you with **60 days** money back guarantee.

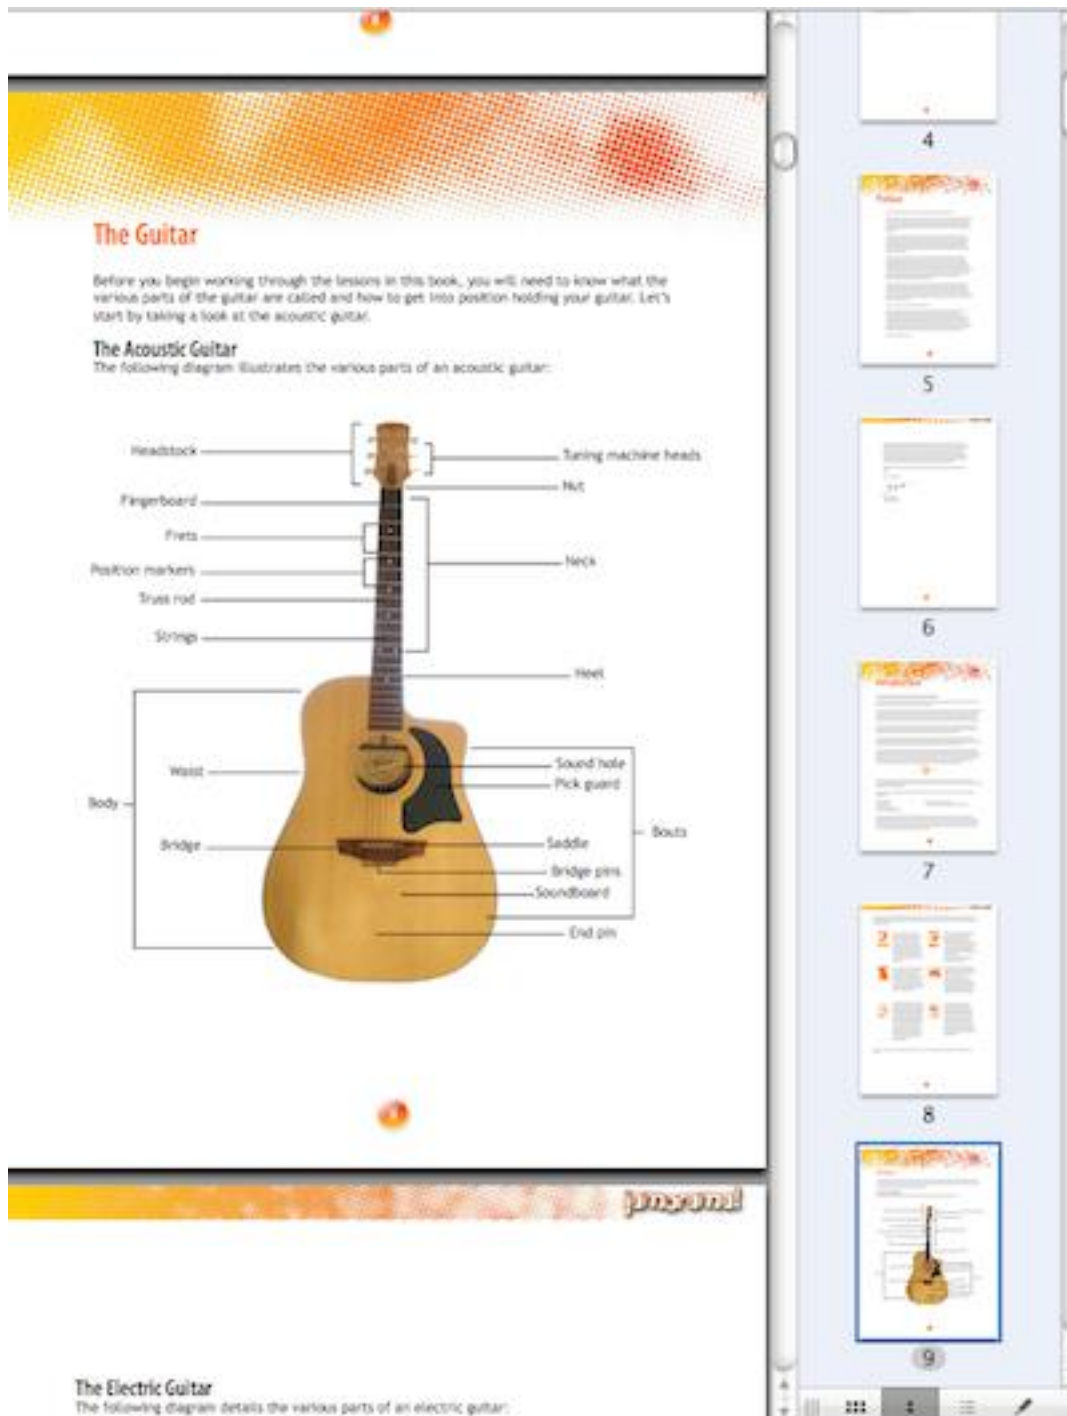

How to get my Jamorama copy?

Simply click the '[Get Instant Access](#)' below to go directly to their page or just click [here](#) to be directed to payment screen and watch the [step-by-step guide to make the purchase at Jamorama](#) .

Inside Ebooks:

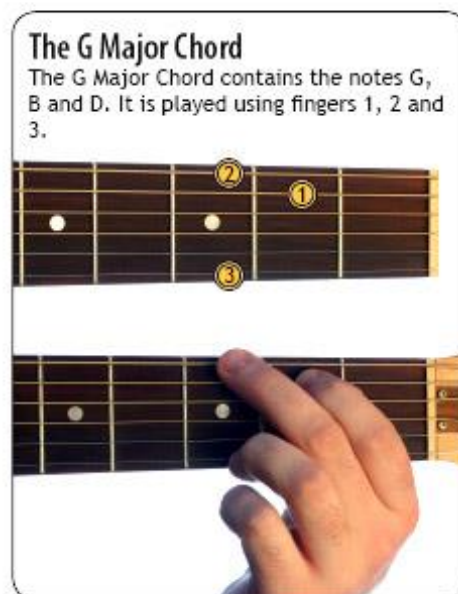

Lesson Five

The key to good practise

Be sure to allow enough time for practise. In your busy and complex life, it can be very hard to find some time to sit down and work on your guitar. You need to stick to a plan. A routine means that you have designated practise times for each day. If you know the times that you will practise during the week, you will be able to maximize your practise productivity and maintain a constant rate of learning.

Of course, there will be times when your plan gets interrupted by the unexpected. You might have friends drop by or a party to go to or a doctor's appointment to attend. These things will never stop. You really just need to have a flexible plan so that your practise fits in with your life. The amazing thing is that over time, your lifestyle and friends will change because of your practise and your passion for music.

Note that finger 1 plays a B note, finger 2 plays a G note, and finger 3 also plays a G note. According to music theory a G Major chord MUST contain the notes B, D and G. In the above G major chord diagram, the D note is sounded by the open D string (4th string). Remember to consider that open string notes are included in chord make-up and not just the notes played by your fingers.

Remember to watch for chordslike this one throughout the course.

60 Day Money Back Guarantee by Jamorama:

100% Satisfaction
Guarantee
